

## **Environmental Policy**

### **1. Policy Statement**

At Imrali Inventions LTD, we recognise our responsibility to protect the environment and minimize our environmental impact. We are committed to conducting our operations in an environmentally sustainable manner, preserving natural resources, and contributing to a healthier planet for current and future generations.

### **2. Objectives**

Our environmental objectives include:

- Reducing our carbon footprint and energy consumption through efficient practices.
- Minimizing waste generation and promoting recycling and responsible disposal.
- Conserving water resources through efficient usage and responsible management.
- Incorporating environmentally friendly practices into our procurement and supply chain processes.
- Complying with applicable environmental laws, regulations, and standards.

Our products are designed with the environment in focus to reduce waste and energy consumption in our customer laboratories.

### **3. Responsibilities**

**Management:** Senior management is responsible for establishing and maintaining an environmentally conscious culture within the organization. They allocate resources to support environmental initiatives and ensure compliance.

**Employees:** All employees are expected to adhere to environmental policies, participate in environmental programs, and contribute to reducing our environmental impact.

### **4. Compliance**

We are committed to complying with all relevant environmental laws, regulations, and standards applicable to our industry and operations.

### **5. Resource Efficiency**

We aim to use natural resources efficiently and minimize waste generation across all operations. This involves adopting energy-efficient technologies, reducing water consumption, and optimizing material usage.

## **6. Pollution Prevention**

We actively seek to prevent pollution and reduce emissions that could harm the environment. This includes managing emissions, controlling hazardous substances, and minimizing the release of pollutants.

## **7. Sustainable Procurement**

We prioritize environmentally friendly products and services in our procurement processes, favoring those with lower environmental impacts and better sustainability practices.

## **8. Communication and Training**

We promote awareness and understanding of our environmental policy among employees, contractors, and stakeholders. We provide relevant training to ensure everyone understands their role in achieving our environmental objectives.

## **9. Continuous Improvement**

We regularly review and improve our environmental practices, policies, and procedures based on feedback, technological advancements, and changes in regulations.

## **10. Documentation**

All environmental policies, procedures, records, and related documentation are maintained and accessible to relevant parties.

We believe that every action, no matter how small, contributes to our collective efforts to protect the environment. Through the commitment of every team member, we can make a positive impact on the planet.

Imrali Inventions goal is to provide green products to minimise the environmental impact of laboratory research in the world.
